March 1 Hog Inventory 3% Higher, February Pigs Gain by

54.6 Million Head Estimated, Breeders Advanced 6%, Market Hogs 2% Higher, Farrowing Intentions Indicate Gains

Washington, Mar. 21 (USDA) — Inventory of all hogs and pigs on March 1, 1983, in the 10 states routinely surveyed by the USDA is estimated at 54.6 million head, 3% above last March, but 8% below March 1981 and 1% below the March 1980 level.

Breeding inventory, at 5.31 million head, was 6% more than a year ago but 9% less than March 1981. This is the first increase in the March breeding herd since 1979.

Market hog inventory, at 35.7 million head, was 2% above last year but 9% below two years ago.

The December 1982 — February 1983 pig crop was 13.5 million head, 10% more than last year but 2% below two years ago. There were 2.4 million more pigs farrowing during the past quarter. An increase of 6% from a year ago but 6% below the same period two years ago.

Sows farrowing averaged a record high 7.44 pig per litter compared with 7.11 last year and 7.24 two years ago. The litter rate was the highest on record for a December — February quarter and second highest overall for the 10 quarterly states. The highest litter rate on record is 7.64 in March — May 1981.

Hog producers in the 10 quarterly states included Georgia, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Carolina, and Ohio.

New Dairy Program Endorsed by FB

Washington — Agriculture Secretary John Black's call for new dairy legislation presents the industry with an opportunity to maintain the integrity of the dairy program while getting the federal "backstop" removed. American Farm Bureau Federation President Frank M. Young said today that the organization supports the Secretary's call for new legislation.

The Secretary urged new legislation April 16, the first of two 50-cent assessments on dairy production mandated by current law. If by Aug. 1 no consensus on a new plan emerges from the industry, Black said he will have to implement the second assessment.

Fed Cattle Firm, Higher, Hogs Gain At Markets Monday

Market supplies of slaughter cattle and hogs were somewhat smaller Monday largely due to the winter weather. Both carcass beef and the pork cuts met steady or higher prices and some points reported the limited supplies were a factor. Monday's fedlot cattle were again a factor in the trading and generally the lower end of the quotations on the choice and prime steers and heifers represented muddy cattle. Fed cattle were firm to unevenly higher at most markets. Slaughter cows showed some strength at a few places and bulls were generally scarce and steady. Hogs posted prices from 25c to as much as \$1 to \$1.50 higher. Monday's estimated cattle kill at 119,000 was 7,000 above a week ago and 6,000 over last year. Monday's estimated hog kill at 314,000 was 7,000 ahead of a week ago and 7,000 under last year this date.

Price trends, quotations on choice and prime steers and heifers and 10 good and choice Holstein steers and on U.S. 1-3 hogs scaling from 200 to 270 or 280 pounds included:

OMAHA fed cattle 50c to \$1 higher. Steers \$64.50 to \$66 and \$63 to \$64.50. Choice Holsteins at \$58. Heifers \$62.50 to \$64 and \$61 to \$62.50. Hogs steady to 5c higher at \$51 to \$52.50. SIDUX CITY fed cattle steady to 5c higher. Steers \$62.50 to \$64 and \$63 to \$64. Holsteins \$64.50 to \$65.50. Heifers \$60.50 to \$63 and \$60.50 to \$61.50. Hogs \$1 higher at \$51 to \$52.50.

ST. PAUL fed cattle firm, spots 50c higher. Steers \$62 to \$63.50 and \$60.50 to \$62. Holsteins \$55.50 to \$58.50. (CONT. ON PAGE 11A)

Farmers Enrolled 187 Million Acres 81.2% for PIK

Washington, March 22 (USDA) — Farmers have signed up in the 1983 average reduction and PIK Program 187 million acres of food grains, oilseeds, and upland cotton. The U.S. Department of Agriculture today announced the enrollment represents 81.2 percent of the 230 million acres of total base acreage.

The sign-up was necessary to determine producer eligibility for program benefits such as Community Credit Corporation Loans and Purchases, Title Target Price Protection and — for wheat

Carlot Beef Opens Steady, \$1 Higher

U.S. carlot beef includes the major production areas in the Midwest and Texas-Oklahoma Packhandl as of 4:00 p.m. Compared to Friday's 4:00 report: Steer and heifer carcasses mostly steady except light weight heifers and yield grade 4's \$1.00 higher. Demand light, trading slow on light to moderate offerings. The gross boxed beef carcass cut-out value declined \$3.00 to an estimated \$102.69 per cwt. Sales reported on 26 loads of steer and heifer carcasses.

UNDERSTAND US, NEW COMERS OR PHOOLS...

One thing we can get together on these days is highly educated folks who are "foreign" to the situation and telling us not only where we are, but where we are not and also where we are going. This reminds us of the old saying that anybody who tries to predict Texas weather is either a new comer or a damn fool.

For instance, not too long ago Chrysler Corp. was just about the sickest cat in the automobile stable and they recently reported they made a profit in the car business, something no other American company has been able to do recently, and in comparison to their debt load some of the smaller makers were what you might call in no more than a tail of trouble. Lee Iacocca was fired at Ford and took over and promoted General Motors banking.

Pesticide Use on Set-Aside Acreage

The Texas Agricultural Aviation Assn. reports the following information from the Environmental Protection Agency in their recent newsletter:

A Payment-in-Kind (PIK) program for the 1983 crops of wheat, corn, grain sorghum, cotton and rice was recently announced by the USDA. On February 16, 1983, Douglas D. Campt, Director of the Registration Division, EPA Office of Pesticide Programs described the current thinking of the EPA regarding pesticide use in the set-aside acres under the PIK program. He told the Regulatory Committee that the set-aside land should be regarded as crop land because the land will be used again for crops. Thus, under no circumstances should it be considered noncropland.

Campt said that the Agency will allow the following types of pesticide application to set-aside agricultural acreage: If the land contains previous crop residue or stubble on the soil surface

Pesticide Use on Set-Aside Acreage

(CONT. FROM PAGE 1A)

and was without a cover crop, pesticides registered for either "fallow" applications or for "minimum till" applications prior to planting of the designated cover crop may be used.

If the field contains wheat or a cover crop either of which may be grazed, or the wheat is cut for hay at the growers choosing, all pesticide applications must follow the specific use directions, precautions and restrictions applicable to that crop.

Further information and a broader coverage concerning pesticide use on set-aside agricultural acreage will be forthcoming soon from the EPA.

Panhandle Feedlot Sales New Record

Amarillo, Mar. 18 (F.S.) — Slaughter steers and heifers closed 1.00 higher. This week's volume is the largest for any week on record in the Panhandle feedlot area, with the previous record being 90,700 set in early February, 1982. Area packers purchased practically all of movement and very few cattle purchased outside of this area by mid-week for slaughter in this area. Feedlots in the area are very very scarce. Some feedlots do have moderate numbers of long fed steers weighing 975-1025 lbs. and heifers under 900 lbs. Some snow an rain hit the northern half

of the area Wednesday but the new was gone by Thursday afternoon and should not cause very many problems. The average live weight of most cattle slaughtered in area packing plants last week was 1051 lbs. compared to 1055 lbs. the previous week and 1065 lbs. a year ago. Steers 73,100; Good and mostly choice 2-3, 70-85% choice, 1000-1150 lbs. 64.00-65.50, late bulk 65.00-66.50. Mixed good and choice 2-3, 925-1175 lbs. 63.00-65.00, late sales 64.00-65.00. Fow pens good and choice 2-3, 1050-1175 lb. Holsteins 57.00-58.00, some at 95.00 in the host. Heifers 19,900; Good and mostly choice 2-3, 900-1025 lbs. 61.50-63.00; late 62.50-63.00. Mixed good and choice 2-3, 850-1050 lbs. 60.00-62.50; late 61.00-62.50. Good and choice 2-4, 960-1100 lb. heiferettes 57.50-60.00.

Pesticide Use on Set-Aside Acreage

(CONT. FROM PAGE 1A)

and was without a cover crop, pesticides registered for either "fallow" applications or for "minimum no-till" applications prior to planting of the designated cover crop may be used.

If the field contains wheat or a cover crop either of which may be grazed, or the wheat is cut for hay at the growers choosing, all pesticide applications must follow the specific use directions, precautions and restrictions applicable to that crop.

Further information and a broader coverage concerning pesticide use on set-aside agricultural acreage will be forthcoming soon from the EPA.

Panhandle Feedlot Sales New Record

Amarillo, Mar. 13 (F-S) — Slaughter steers and heifers closed 1.00 higher. This week's volume is the largest for any week on record in the Panhandle feedlot area, with the previous record being 90,700 set in early February, 1982. Area packers purchased practically all of movement and very few cattle purchased outside of this area by mid-week for slaughter in this area. Feedlots in the area are very very scarce. Some feedlots do have moderate numbers of long fed steers weighing 975-1025 lbs. and heifers under 900 lbs. Some snow an rain hit the northern half

of the area Wednesday but the snow was gone by Thursday afternoon and should not cause very many problems. The average live weight of most cattle slaughtered in area packing plants last week was 1051 lbs. compared to 1056 lbs. the previous week and 1055 lbs. a year ago. Steers 78,100; Good and mostly choice 2-3, 925-1175 lbs. 64.00-65.50, late bulk 05.00-65.50. Mixed good and choice 2-3, 925-1175 lbs. 63.00-65.00, late sales 64.00-65.00. Few pens good and choice 2-3, 1050-1175 lb. Holsteins 57.00-58.00, some at 95.00 in the beef. Heifers 19,900; Good and mostly choice 2-3, 900-1025 lbs. 61.50-63.00; late 62.50-65.00. Mixed good and choice 2-3, 850-1050 lbs. 30.00-32.50; late 31.00-62.50. Good and choice 2-4, 950-1100 lb. heiferettes 57.50-60.00.

There are about 3,000 low islands and rocky islets in the Bahamas.

Dude, owned by Hook Livestock Enterprises, Menhatten, KS, was the champion Simmental bull of the 1983 Houston Livestock Show.

Winners Selected in 'Champions of Champions' Simmental Show

Fifty of the best Simmental cattle in the country representing 14 states competed for top honors in the "Champions of Champions" Simmental Show at the Houston Livestock Show.

Entries were made up of qualifying animals according to the Texas Simmental Association rules. Points accumulated throughout the year for grand champion, reserve champion, first, second, third and fourth place awards at major shows were added up to determine the top 50 Simmental to the breed. Owners of these animals were issued invitations to compete for the top placings in the "Champions of Champions" Show.

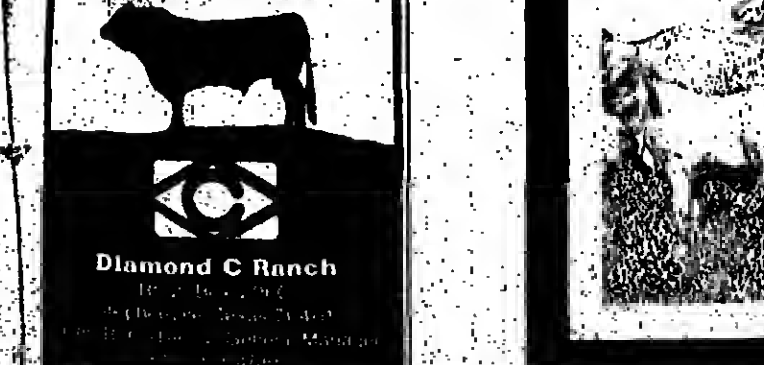

Judging of the Simmental entries was done by a committee of three judges. Each class placing was determined by two judges and the third judge served as a referee in case the placings conflicted. The two official judges were Jerry Johnson of McArthur, OK, Jim Williams of the V & S Ranch at Hungerford, TX, and Dr. Bob Long of Texas Tech University, Lubbock.

The committee's choice for the grand champion female was "Bar F Miss YO 28," owned by Nikki and Shelley Overpeck of Clinton, IN. The three-year-old female was sired by "Bar Double D Master." She repeated her win from last year when she was awarded the grand championship at Houston as a two-year-old. The year (CONT. ON PAGE 23A)

Gail Connell Has Champion Junior Simmental at Houston

Gail Connell of Johnson City, TX, exhibited Teasa's Aces to the championship honors in the Junior Simmental division of the Houston Livestock Show. Reserve Simmental heifer was Spot's Miss, the entry of Jerry L. Fontaine, Kilgore, TX. Charlene Tom, Stanton, TX, led the champion Simmental steer of the show with Melissa Soehne of Castroville, TX, taking reserve.

Second high seller was a consignment of Greenway Farms, Ben Franklin, TX, a fullblood bull, born November 1981 and sired by Ranch Hand. He sold for \$1500 to Ryan Cromer, Lyndon. Third high selling bull was another consignment from Longier Farms, a fullblood bull son of MI Prairie Boy 41H that went to Ray Evans, Eustace for \$1500. Auctioneer was Charles Rollins.

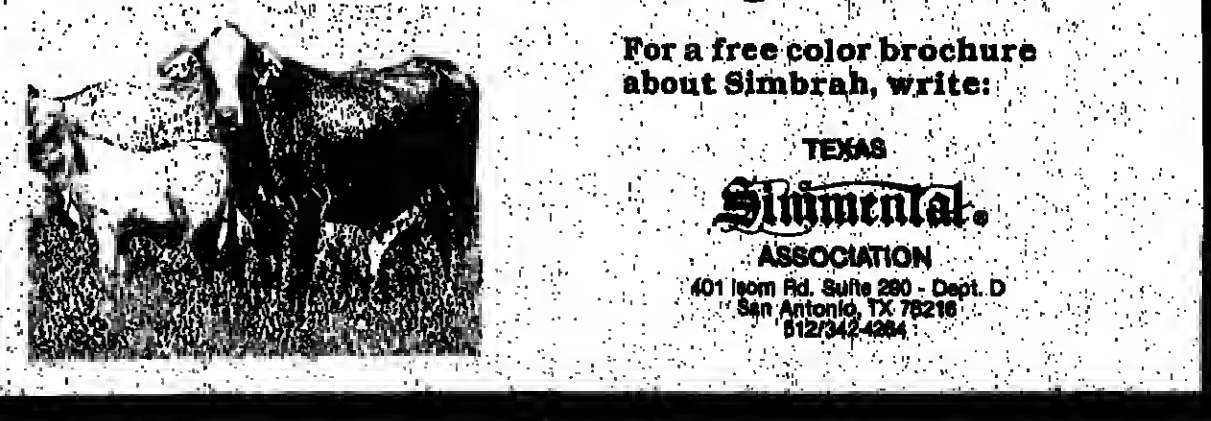

What's behind the Simmental explosion?

American ingenuity develops a better breed.

You'll want to retain the Brahman strengths of adaptability, calving ease, longevity, heat and disease resistance. Add the Simmental traits of fertility, milking ability, early sexual maturity, breeding aggressiveness, growth, muscle, feedlot efficiency and desirable carcass quality. The result - Simbrah. And that's why they're in demand.

Simbrah: The best of two great breeds.

Increase Nuclei Simmental Membership

Bozeman, MT - Membership in the American Simmental Association increased during 1982, as reflected by year-end reports recently released by ASA Executive Vice-President Earl B. Peterson.

"Growth is occurring in the youth membership as well as the adult category," Peterson said. "We have been expanding our youth activities

in all aspects and the economics of raising beef cattle."

New memberships have nearly doubled in the past four years, growing to 17,802 by the end of 1982. No annual dues are assessed, and breeders pay a one-time assessment of \$150.00 which entitles them to lifetime membership in the Association.

"We experienced another big increase in performance calculations as well," Peterson explained. "A total of 183,125 performance calculations were processed, a jump of more than ten per-

centage over the previous year. These calculations are free of charge to the animal involved in the progeny of an ASA registered parent."

Founded in 1958, the American Simmental Association currently ranks fourth among all U.S. beef breed associations in terms of annual registrations. During the past year, 79,764 animals were registered in the Simmental Herdbook.

RRC Chairman Wallace Outlines Key Issues For Oil Industry

(CONT. FROM PAGE 1A) gathered for the Commission's annual "state-of-the-industry" hearing here, Wallace said, "Like it or not, our natural gas prices are being set by the Congress and our oil prices are being set by Saudi Arabia. I resent it and I

believe the American people resent it." According to Wallace, the oil and gas industry and Congress stand face to face with "one of the most serious challenges either has ever encountered." He said America's energy needs are in jeopardy not because of scarce oil and gas resources, but because of "petty partisanship and regional bickering."

"The American consumer is angry," he said, "the public does not know which set a scare tactics to believe. This nation's energy needs should not be a partisan issue."

The Railroad Commission's senior member blamed the Natural Gas Policy Act of 1978 for the disruption in the country's natural gas markets, pointing out that it is keeping the price of gas high at a time when the law of supply and demand says the price should fall.

"That law was conceived in an atmosphere of panic after a temporary supply shortage of natural gas," Wallace said. "It effectively split the country into regional sections and created sharp divisions among gas producers, gas pipelines, gas distributors,

and gas consumers. The law actually encourages the production of the most expensive types of gas."

Describing the gas market in America as a "mess," Wallace told the industry representatives that the current surplus of natural gas is temporary, the result of economic recession, reduced demand and falling prices of competitive fuels, not new supplies.

He warned that Congress is again considering solutions in a "panic" and that although it's too early to predict, "it appears we are about to replace one set of regulations with another."

Wallace said, "There is no more equitable remedy or resolution to this sorry natural gas problem than the removal of these various price controls as rapidly as possible. There will be some pain involved, but extracting oneself from a thorny briar patch is sometimes painful."

Moving to the issue of foreign oil considerations, Wallace said the only way for the country to free itself is to increase exploration and production at home.

"Like it or not," he said, "you can't build an economy, provide jobs for the unemployed and food for the hungry,

and assure the security of America with drilled oil and gas wells here at home." The Commission chairman called on the oil company representatives to voluntarily limit their foreign oil imports and expand their exploration and production base in America, saying, "It is long past time for us to free ourselves from this dependence — free ourselves economically and free ourselves strategically."

What the nation desperately needs, but is unlikely to get in the current "spider web" of regulation, according to Wallace, is a national fuels policy which includes complete and total decontrol of natural gas.

"The existing bad law must be repealed in its entirety," he said, "so that natural gas may be free to search out its true value in the market place. In my opinion, deregulation would result in lower prices for the consumer."

Existing gas contracts might have to be renegotiated, Wallace said, but "completely unshackled from regulatory pricing schemes, I believe producers and pipeline will find it to their own advantage to renegotiate."

He said he has serious reservations about any federal intervention in those contracts.

Wallace called upon the industry representatives to stop quarreling among themselves and upon Congress to "stop evading the difficult decision that must be made if we are to assure security for the future."

Pinzgauer/Pinzbrah Field Day Will be May 14 in Athens, TX

Bob Sullivan, President of the Southwest Pinzgauer Association and Dan Scott, spokesman for East Texas Pinzgauer Breeders jointly announce the Southwest Pinzgauer Association and East Texas Pinzgauer Breeders would co-sponsor a Pinzgauer/Pinzbrah Field Day to be held at the Henderson County Fairgrounds at Athens, Texas on May 14, 1983.

Sullivan stated that the S.W.P.A. annual membership and Board of Directors Meeting would also be held at that time.

The Field Day is planned to follow the format of the highly successful venture held in Canton, Texas in 1982. Already confirmed for the program are outstanding beef cattle specialists and agricultural economic experts from area experiment stations and universities. Regional and national Pinzgauer

leaders will also outline history and progress of the Pinzgauer breed with emphasis for this exhibit being placed on the unique genetic potential of Pinzgauer cattle in crossbreeding programs.

The highlight of last year's program, a buffet luncheon which is provided by East Texas Pinzgauer breeders and their wives and provided for all visitors and guests at the Field Day, is again included in the program. Local arrangements are the responsibility of Marie Hooper, Tyler, Texas, Don Scott, Murchison, Texas and Matt Free, Sunnyside, Texas. Individuals interested in bringing exhibit cattle, or have suggestions for the program or require any ad-

Regional Pinzgauer Show at East Texas Fair, Tyler in 1983

In October of 1982, shortly after the East Texas Fair, Bob Sullivan, President, S.W.P.A., mailed a questionnaire to all breeders and exhibitors who participated in the 1982 S.W.P.A. Show. He received a response from a majority of the exhibitors and breeders and those were invariably strongly positive regarding the Show and Pinzgauer Exhibit.

The S.W.P.A. Executive Committee has tentatively arranged with the East Texas Fair to present the S.W.P.A. Regional Show and Exhibit in 1983 with a format similar to that which was held to be so successful in 1982. The Show Committee will be appointed at the May Membership and Board of Directors Meeting to be held in Athens, Texas. Sullivan asked that all prospective exhibitors begin to select and fit their animals now for this first major show of the 1983-84 winter circuit.

Additional information regarding the Field Day are urged to contact these Committee members.

As an added feature of this Field Day the Southwest Association is seeking the APA to provide materials and equipment for conducting a cattle registration workshop and a field trip is planned at the end of the Field Day to Scott Pinzgauer Ranch to visit Pinzgauer and Pinzbrah breeding operations and to examine various forage programs on the ranch.

Final Plans Set For All Breeds Bull Sale

Sealy — Final plans have been made for the 1st Annual Gulf Coast All Breeds Bull Sale to be held at Port City Stockyards in Bealy, Texas on March 26, 1983. Over forty breeders of purebred cattle have consigned 176 bulls representing 17 brands.

These bulls will be arriving at Port City Stockyards on Thursday, March 24th in the afternoon. On Friday, March 25th, at 1:00 P.M., the bulls will be presented to a team of three veterinarians who will fit the bulls for structural soundness and condition. The bulls will then be weighed and a weight per day of age figured on each bull. They will then be graded by the

arena where they will be graded by the

teen cattlemen. The bulls must score at least 85 points from a possible 100 in order to sell on Saturday. The public is welcome to attend the grading on Friday.

Sales manager, John Jayce, states, "an all breeds bull sale such as this with such a rigid method of selection will insure buyers at buying only bulls of the highest quality."

All bulls consigned to this sale will be fertility tested and guaranteed by the individual consignors. The bulls will also have a Tuberculin and a brucellosis test and will be ready for shipment to any destination.

Sale headquarters is the Countrywide Motel in Sealy, Texas located on IH 10 and Highway 38 (713/885-7407). For further information and catalogs, contact John Jayce, Rt. 2, Box 232, Wharton, Texas (713/857-2212 or 843-3035).

J. Garland Warren & Sons Annual Horse Sale, Mar. 26

San Marcos, TX — The J. Garland Warren & Sons Annual Horse Sale will

be held March 26, 1983. Sale time is 12:00 noon. The sale arena is located off I-35 south at San Marcos, exit at 200 mile marker and go east one mile.

Activities surrounding the sale begin at 7:30 p.m., March 24 with a Pro-Am Team Roping, then at 7:30 p.m., March 25 there will be calf roping at 19 and under followed by open calf roping.

Novice team roping will begin at 11:00 a.m., March 27.

Cassignments are being accepted to this sale and will be limited to 25 guest consignors, plus 25 to 30 head of horses owned by J. Garland Warren. Also selling will be a good selection of Mexican Corriente Steers.

For information contact J. Garland Warren, Rt. 1, Box 103-D, San Marcos, Texas 78666, days 512/992-4676 or nights 512/992-3029.

amount of money available to other borrowers," the senior Texas senator said. "This additional savings generated by MRAs would benefit not only individuals providing for their futures, but allow would stimulate the national economy," he added.
 "For financial institutions, early payment of mortgages would mean that some of their assets would be freed earlier than scheduled. That, in turn, would give them greater ability to respond to fluctuations in interest rates," Tower said.
 "Additionally, the housing industry is such a vital part of our economy that recovery in this sector is vital to the overall prosperity of the nation. This

Mortgage Retirement Account Legislation Proposed by Tower

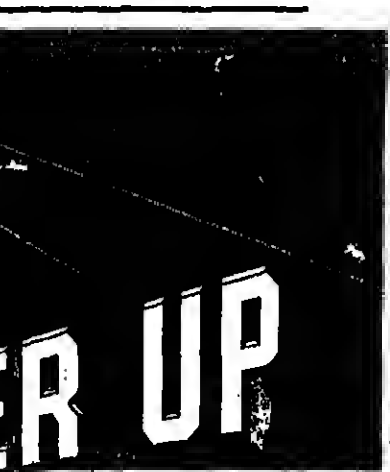

WASHINGTON — U.S. Senator John Tower (R-Texas) announced today he will introduce legislation to promote increased savings and home ownership.
 "The Mortgage Retirement Account (MRA) Act of 1983 would allow individuals to establish a tax-deferred account to save for a down-payment on a home. Those who own homes could establish an MRA to pre-pay principle on their mortgages. Regulations and limitations on the MRA would be virtually identical to those now covering IRAs," Tower explained. Tower is the new chairman of the Senate Subcommittee on Housing and Urban Affairs.
 This legislation would simultaneously encourage savings and stimulate the vital housing industry," Tower said. "Young people who may not wish to save for their retirement would have a significant incentive to combine the tax advantages of an IRA with the opportunity to set aside money for a home. Renters will have a way, under the existing IRA mechanism, to own a home of their own while providing equity for financial security when they retire."
 "Current and future homeowners who choose to pay off their mortgages at a faster-than-scheduled rate will be 'saving' as well, since they will be reducing their debt and therefore increasing the

plan would directly stimulate this industry without drawing from the federal budget. In fact, the long-term impact on tax revenues from enactment of this plan could very well be positive, given increased employment and reduced mortgage interest tax deductions," he said.
 Tower informed his colleagues today of his planned legislation. He expects to introduce the bill within the next week.

WHEN STRESS GETS THEM DOWN...

with Raico Power-Pak

You don't have to be told what stress can do to your stock... poor nutrition, shrinkage, slow recovery, deathloss. Raico-Mix Power-Pak is especially formulated to fight the debilitating results of stress. High levels of vitamins, electrolytes, amino acids, Suppil-Mix and probiotics promote appetite, improve total digestion and stimulate an active rumen population.
 Power-Pak can be used for animals at any age including calves suffering from stress-induced diarrhea and dehydration. In severe stress cases, Power-Pak can be administered as a drench. Mixed with whatever you feed, Raico-Mix Power-Pak is a proven way to stop stress.
